The Bombay Salesian's Society
DON BOSCO INSTITUTE OF TECHNOLOGY
Premier Automobiles Road, Kurla West, Mumbai–400070
(An Autonomous Institute Affiliated to University of Mumbai)

Department Name: Electronics and Telecommunication Engineering

Report on – Tech Canvas 2026

Title: Tech Canvas 2026

Date: 14th August 2026

Time: 3:00 pm to 4:30 pm

Venue: EXTC Lab 4 First Floor

Target Audience: COMP/EXTC/IT/MECH

No. of Participants Present: 10

No. of Girl Participants Present: 4

No. of Boy Participants Present: 6

Organizing Department/Committee: IETE-DBIT-ISF

Faculty Coordinator: Mrs Namita Agarwal

Objectives:

- To encourage students to creatively express engineering and technological ideas contributing to Viksit Bharat.
- To develop students' creativity, innovation and digital design skills using Canva.To encourage creativity and innovative thinking among students.
- To enhance students' ability to communicate technical ideas effectively through visual media. visually.
- To promote awareness of technology-driven solutions for societal development.

Outcomes:

- Increased interest in engineering innovation and entrepreneurship.
- Enhanced visual communication and presentation skills.
- Motivation to contribute towards Viksit Bharat and a self-reliant India.
- Improved creativity and innovative thinking among students.

Mapped Program Outcomes:

PO3: Design/Development of Solutions:

Students develop and visually present an engineering/technology-based idea addressing a national or societal need.

PO5 – Modern Tool Usage

Students use Canva, a modern digital design tool, to create and communicate their engineering ideas.

PO6 – Engineer and Society

Students connect engineering and technology with India's development, societal needs and the vision of Viksit Bharat.

PO10 – Communication

Students communicate an engineering/social message clearly and effectively through a concise visual poster.

Mapped Sustainable Development Goals (SDGs)

- SDG 4 – Quality Education:

  Promotes creativity, innovation, technical learning and communication skills.

- SDG 9 – Industry, Innovation and Infrastructure:

  Promotes engineering innovation and technology-driven ideas for societal development.

Detailed Report:

The IETE-ISF Students' Chapter of the Electronics and Telecommunication (EXTC) Department at Don Bosco Institute of Technology (DBIT) organized "**TechCanvas 2026"**, a live poster-making competition, on **14 August 2026** as part of the Independence Day celebrations. The competition was conducted at EXTC Lab 4 under the guidance of Faculty Coordinator Prof. Namita Agarwal. Students from different engineering branches participated in the event.

The competition was conducted around the theme **"Engineering Ideas for Viksit Bharat."** Participants were given the opportunity to develop their posters during the event and present their concepts through an engaging visual format. The live format enabled students to work within the stipulated time while developing and refining their poster concepts.

Students presented a variety of engineering-related ideas through their posters, reflecting different approaches to the given theme. The activity provided an interactive setting in which participants worked individually to develop their concepts and visually organize relevant technical content.

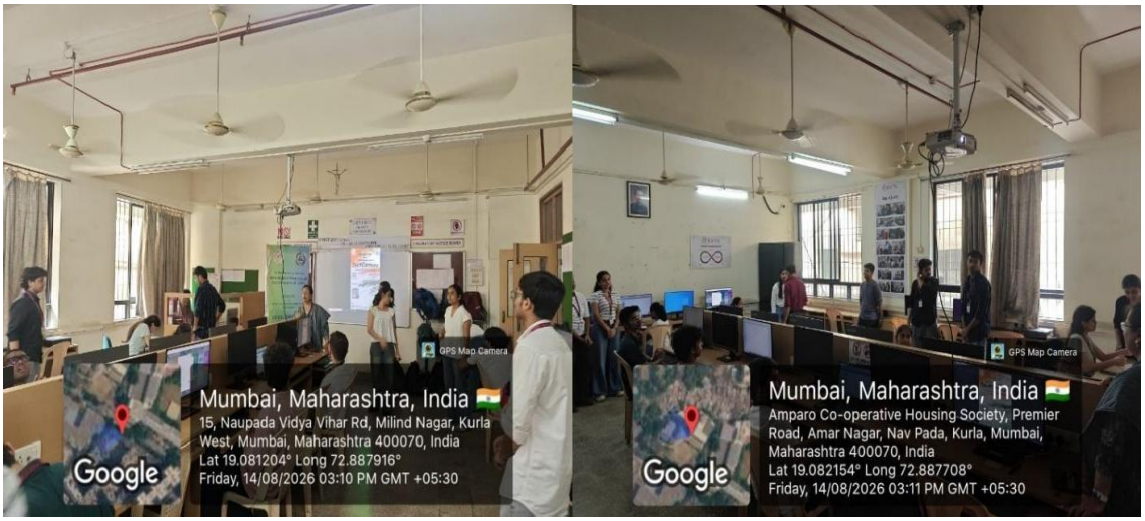

The completed posters were evaluated by the judges based on relevance to the theme, originality, creativity, technical content, innovation, visual presentation, and overall impact. The evaluation process helped identify the entries that demonstrated a strong combination of concept development, technical content, and effective poster presentation. Following the evaluation, the winning entries were announced, and the winners were felicitated with prizes and certificates of achievement. Participation certificates were also distributed to the registered participants in recognition of their involvement in the competition.

TechCanvas 2026 highlighted the value of conducting interdisciplinary and creativity-oriented activities alongside regular academic learning. The event provided students with a platform to explore their ideas, showcase their potential, and participate in a meaningful technical and creative activity. Such initiatives contribute to the development of skills such as creative thinking, design thinking, communication, presentation, teamwork, and confidence, while encouraging students to engage with engineering concepts beyond conventional classroom learning. The successful conduct of the event also encouraged IETE-ISF DBIT to continue organizing similar activities that provide students with opportunities for innovation, expression, and active participation

Snapshot of the Event:

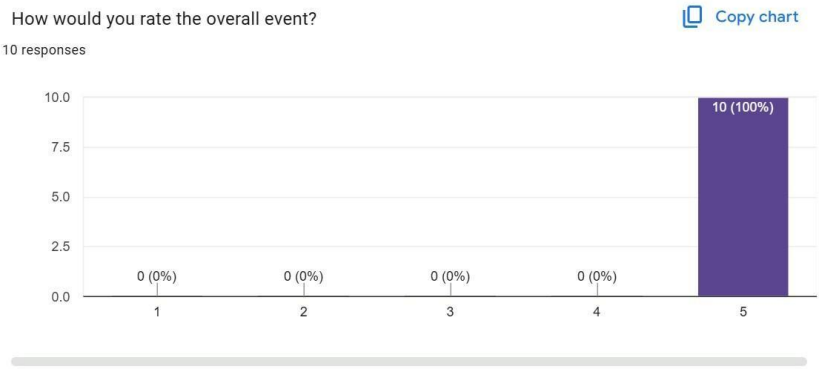

Feedback:

A feedback survey was conducted after the event, with all the participants submitting their responses. The overall feedback indicates that Tech Canvas 2026 was highly appreciated for its organization, creativity

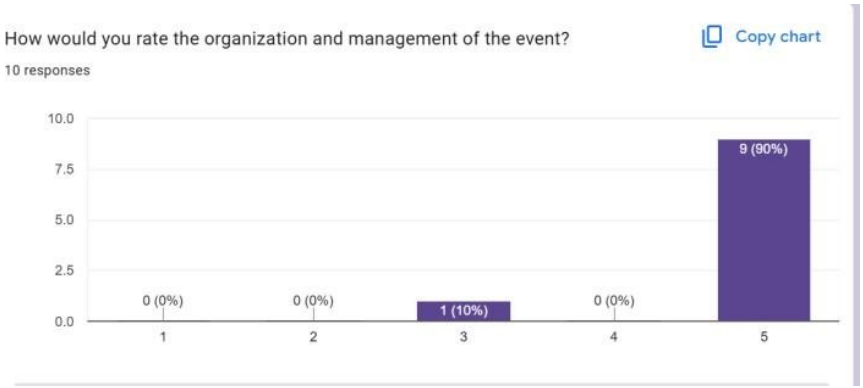

• Overall Event Rating:

100% of participants (10/10) rated the event 5 out of 5, reflecting excellent overall satisfaction.

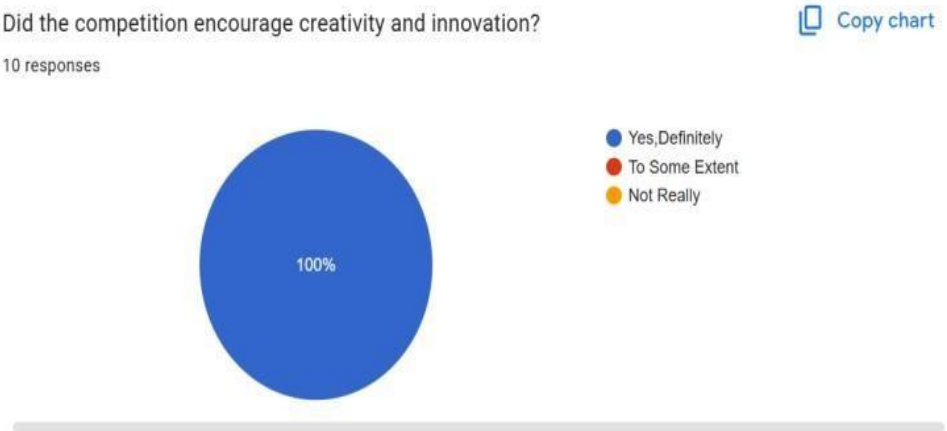

• Organization & Management:

90% rated that the event was organized effectively, while 10% rated it 3/5, indicating that the event was managed efficiently with minimal scope for improvement.

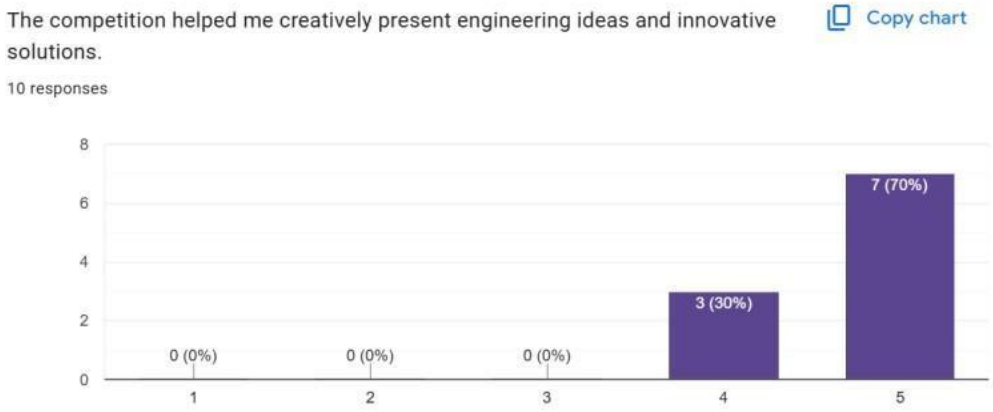

• Encouragement of Creativity:

100% of participants responded that the competition successfully encouraged creativity and innovation.

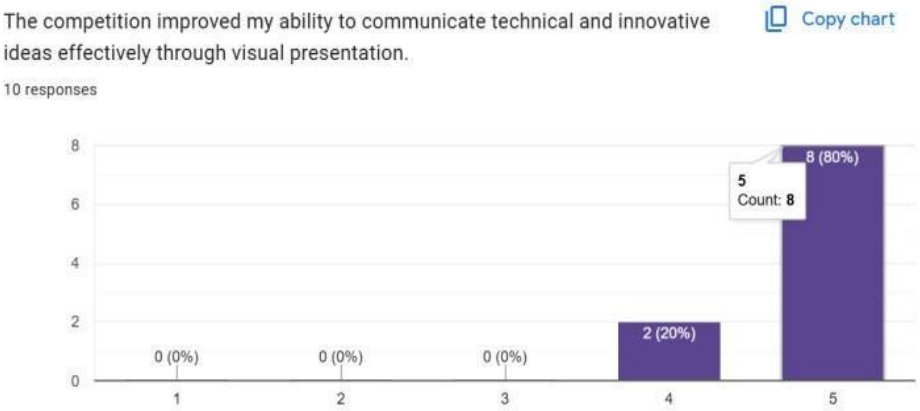

• Creative Presentation of Engineering Ideas:

70% rated this aspect 5/5 and 30% rated it 4/5, showing that the event effectively helped students present their ideas creatively.

• Improvement in Visual Communication:

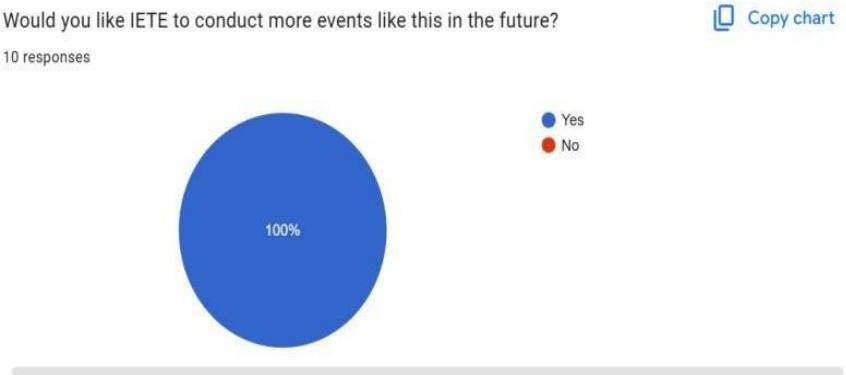

80% rated this aspect 5/5 and 20% rated it 4/5, demonstrating that participants felt the competition strengthened their ability to communicate technical ideas through visual design.

•

• Future Events:

100% of respondents expressed interest in having IETE conduct more events like Tech Canvas in the future.

Overall Analysis

The feedback demonstrates a highly successful event with excellent participant satisfaction. Students particularly valued the creative and innovative nature of the competition, while the unanimous interest in future IETE events highlights the positive impact and engagement achieved through Tech Canvas.

Registration Details:

S. No.	Name	Branch
1.	Saarth Bhushan Gandre	EXTC
2.	Mohd Raza Hasnain Syed	EXTC
3.	Saksham More	EXTC
4.	Namandeep Singh	EXTC
5.	Paarth Powar	EXTC
6.	Virendra Rawat	COMPS

7.	Sapna Kumari Ganesh Giri	EXTC
8.	Disha Ratnesh Mishra	EXTC
9.	Pearlin Charlston Tixeira	COMPS
10.	Princel Charlston Tixeira	COMPS

Report Prepared By:

Name of the Student:

Sneha Pawar & Daniel Sebastian

Post of the students: Treasurer & Secretary

Report Approved By:

Name of the Faculty: Mrs. Namita Agarwal

Post of the Faculty: IETE-DBIT-ISF Coordinator
